### Perfector Plus - Balancing Instrument - 19th October 2004

We are pleased to announce the launch of the New Perfector Plus balancing instrument. The unit is a reliable and proven precision instrument for the measuring and documentation of water flow in heating, cooling and drinking water systems. The unit is supplied complete with durable hard case, battery charger, 2 hoses & connector, program diskette and instruction manual. The Perfector Plus product supersedes the current Perfector balancing Instrument. Technical features of the Perfector Plus can be found [here](#). The target market for the Perfector Plus is:-

- i) Mechanical Contracting companies who undertake system commissioning
- ii) Dedicated Commissioning Specialists

To promote this unit to the Commissioning specialist, we will insert the A4 promotional leaflet into the next circulation of the Quarterly Newsletter (2000 contacts). This should go to the market in a month's time. Product Code:- 0TA00181P
